

1 Q. (Re: Response to IR-PUB-NLH-43) Using the formulas shown on pages 9 and 11 of
2 the Attachment, please show the calculation of interim rates for the period
3 September 1, 2015 to August 31, 2015 for both the ICs and Teck. Base the
4 calculation on the rates proposed in the GRA and the most up-to-date assumptions
5 and forecasts.

7
8 A. Hydro has made the assumption that the intended reference in this question is to
9 the period September 1, 2014 to August 31, 2015. The calculations of the interim
10 rates for this time frame are provided in Hydro's RSP Application, Appendix E (Teck)
11 and Appendix F (Industrial Customers excluding Teck). As noted in the response to
12 IR-PUB-NLH-043, Hydro intends to file an Application with the Board for approval of
13 actual phase-in rates for September 1, 2014 to August 31, 2015 by August 2014.
