

1 Q. **Other**

2 Given that Hydro proposes to continue with the RSP, and that significant changes in  
3 system costs are on the horizon with the construction of Muskrat Falls and  
4 associated transmission, is there justification for the Board to mandate that Hydro  
5 file its next GRA by the fall of 2017? Please provide support for the response.

6

7

8 A. Hydro agrees that with the significant changes in system costs that are on the  
9 horizon with the construction of Muskrat Falls and associated transmission, there is  
10 justification for the Board to direct Hydro to file its next GRA in 2017.
