

1     Q.     (Re: NP-NLH-354) Is Hydro proposing to use the approved methodology for  
2             determining the Holyrood capacity factor in the cost of service study; i.e., five-year  
3             historical period?

4

5

6     A.     No. Hydro is proposing to use a five-year average, which incorporates actuals for  
7             2011 to 2013, and forecast information for 2014 and 2015 as outlined in Section  
8             4.3.3 of the Rates and Regulation Evidence in Hydro's Amended Application.
