

1 Q. Further to PUB-NLH-387 (in which Hydro was asked why and how it selected the +/-
2 \$500,000 for both proposed deferral accounts) Hydro referred to a \$500,000
3 threshold from a 1992 Peat Marwick Report. Please express the \$500,000 from
4 1992 in 2015 dollars.

5

6

7 A. Using the Consumer Price Index to account for inflation, \$500,000 in 1992 is
8 equivalent to approximately \$755,000 in 2015.
