

1 Q. Please provide a list of occasions when Hydro has had to purchase power from the
2 CBPP cogeneration facility when it was spilling water at its hydro facilities owing to
3 high water levels.

4

5

6 A. Hydro entered into an agreement in 2000 for the purchase of energy from the CBPP
7 cogeneration facility. The unit was placed into commercial service in January 2003.
8 Under the terms of the agreement, Hydro agrees to pay for energy delivered up to
9 110 GWh per calendar year (base energy) under a 'take-or-pay' arrangement.
10 Hydro does not have the discretion to reduce or eliminate energy purchases from
11 the CBPP cogeneration facility when it is spilling water at its hydro facilities owing to
12 high water levels.

13

14 Following are the months of spill from Hydro's hydroelectric facilities from January
15 2003 to the end of 2014. Hydro purchased energy from the CBPP cogeneration
16 facility in each of the months of spill.
