

1 Q. **Reference: Page 2.18.**

2 Please provide details on the vacancy rate assumed in the current GRA, including
3 what the rate is equivalent to in terms of Salaries and Benefits, and in terms of FTE
4 positions unfilled.

5

6

7 A. The vacancy rate assumed in the current GRA forecast for 2015 is \$3,336 million, for
8 a total of 40 FTEs. This equates to approximately \$83,000 per vacant FTE. See
9 Table 1 and Table 2.

Table 1

Vacancy in Terms of FTEs

Year	Total FTE ¹ # Forecast	Vacancy Forecast	% of Forecast
2015 Forecast Home Based FTEs	943	40	4.2%

Table 2

Vacancy in Terms of Dollars (\$000)

Year	Forecast Salaries	Forecast Vacancy \$	\$ Per Vacant FTE	% of Forecast
Forecast 2015	\$78,881	\$3,336	\$83	4.2%

¹ Home based FTE (prior to any charges in or out of Hydro Regulated Operations).
