

1 Q. **Reference: Exhibit 5.**

2 Please provide the key studies in support of the revised long-term average hydro  
3 values on the Island Interconnected System.

4

5

6 A. The long-term average hydro values on the Island Interconnected System were  
7 determined by Hydro using the methodology recommended by Hatch in its letter  
8 included as Exhibit 5 of the GRA document. No additional study reports were  
9 prepared with respect to the 2013 GRA modeling.

10

11 For additional detail concerning the methodology and results please see Hydro's  
12 response to NP-NLH-115.
