

1 Q. **Reference: Page 2.5 Table 2.2.**

2 Please provide an explanation of all 2012 industrial CDM, indicating the rationale  
3 for the large increase for 2012, as per Table 2.2 page 2.5.

4

5

6 A. Table 2.2, page 2.5 describes the energy savings achieved within each CDM

7 program and savings can vary depending on customer participation. The 3,172

8 MWh savings in 2012 associated with the Industrial Energy Efficiency Program are

9 the result of three retrofit projects completed through the program by Corner

10 Brook Pulp & Paper, which included upgrades to equipment and process

11 improvements.
