

1 Q. Since the period of regulation of Hydro’s industrial rates, have all customers directly
2 served by Hydro at 66 kV or greater received service under the standard “Industrial-
3 Firm” rate schedule? Or have there been cases where customers received their
4 primary service under alternative rate schedules?

5

6

7 A. Hydro Island Interconnected IC rates were first approved by the Board under Order
8 No. P.U. 7(2002-2003). Since that time, all customers directly served by Hydro at 66
9 kV or greater received service under the standard “Industrial-Firm” rate schedule.
