1	Q.	Re: Wilson Pre-Filed Testimony, page 17.
2		****
3		Please confirm that in addition to the "marginal rate" for
4		energy and demand, industrial customers will face all future
5		calculated RSP adjustments, which serves to increase the
6		practical price signal on energy consumed above the levels
7		otherwise indicated in the rate schedules.
8		
9		
10	A.	Yes. Future positive (or negative) RSP adjustments will alter (either increase or
11		decrease) the unadjusted price signal shown in the rate schedule.
