

1 Q. **Re: Rates Schedules, page 23-24 of 47.**

2 Please provide, using the most recent data available, the number of customers, the  
3 total energy consumption (GWh) and the total demand (MW) for each system<sup>1</sup> and  
4 rate class.

7 A. The requested data for the 2013 Test Year is located in Hydro's Cost of Service  
8 (Exhibit 13), as indicated in the table below.

9

10 Hydro has assumed that energy consumption is at the meter (sales) and demand is  
11 coincident peak (CP) at Transmission level, as many rural rate classes are not billed  
12 for demand.
