

1 Q. **Re: NLH Evidence, Section 2, page 2.48, section 2.6.3**

2 If Natuashish is not considered by NLH to be part of its Isolated Diesel systems,  
3 please indicate whether or not NLH has ever received a service request from  
4 Natuashish, and the disposition of said request(s).

5

6

7 A. Hydro operates and maintains the electrical generation and distribution  
8 infrastructure in the community of Natuashish on behalf of the Mushuau Innu First  
9 Nation (MIFN) on a cost recovery basis. In this capacity, requests for service at  
10 Natuashish are processed in a similar manner as requests from customers in other  
11 communities, except that Hydro's expenses related to its materials and labour in  
12 responding to and completing the service request are billed directly to the MIFN.  
13 The costs and revenues associated with this work are not included in Hydro's  
14 regulated revenue requirement.
