

1 Q. **Re: NLH Evidence, Section 4, page 4.3 to 4.5**

2 Please explain the justification for the size of the first block in the proposed NP rate
3 (280,000,000 kWh), presenting all assumptions necessary to reproduce the
4 calculations.

5

6

7 A. []

8 In the Hydro's Amended Application, the size of the first energy block in the
9 proposed rate to Newfoundland Power was maintained at 250,000,000 kWh.
