

1    Q.    **Re: NLH Evidence, Section 2, page 2.48, section 2.6.3; IN-NLH-082.**

2            Following NLH's review of the proposed design of the facilities at Natuashish  
3            described in IN-NLH-082, did NLH determine that the design met NLH's minimum  
4            standards. If not, why not?

6

7    A.    Following Hydro's review of the proposed design of the facilities at Natuashish  
8            described in IN-NLH-082, correspondence between Hydro and the then Department  
9            of Indian and Northern Affairs indicates that Hydro reviewed and accepted the  
10           specifications of the proposed diesel plant design for Natuashish that were included  
11           in the tender document for the diesel plant construction.
