

1 Q. CDM Re: IN-NLH-012, Rev. 1

2 Preamble: Values in Table 3 (for 2014) are current to Oct. 31, 2014. There is
3 no similar table for 2015.

4 Please provide updated figures for Table 3 (2014) including figures for the full year,
5 as well as forecast figures for the Test Year 2015. If the Isolated Systems Community
6 Energy Efficiency Program ended in 2014, please provide documentation explaining
7 when and why this decision was made.

8

9

10 A. The values for Table 3 from IN-NLH-012 (Revision 1, Nov 28-14) are updated with
11 2014 year end actuals and provided below. There is no forecast for the Test Year
12 2015 because the Isolated Systems Community Program was a three-year program
13 that ran from 2012 through 2014 inclusive. Please refer to Hydro's previous
14 responses to IN-NLH-169 and PUB-NLH-313, which indicate the Isolated Systems
15 Program was a three-year program.

Table 3¹: Isolated Systems Community Energy Efficiency 2014

System	Residential Savings (MWh)	Commercial Savings (MWh)	Program Costs (\$000s)
Black Tickle	25	11	15
Cartwright	165	65	111
Charlottetown	81	23	38
L'Anse au Loup	425	148	238
Makkovik	37		24
Mary's Harbour	108	29	67
Paradise River	12		8
Port Hope Simpson	99	17	51
Rigolet	72	26	48
William's Harbour	12	4	8
Total	1,035	322	608

¹ Values in Table 3 are as of December 31, 2014.
