

1 Q. **Re: IN-NLH-019 and IN-NLH-019 (Rev. 1, Nov 21-14)**

2 The figure provided for 2013 Labrador Interconnected CDM Expenditures in IN-NLH-
3 019 was \$195,000. In the revised response, this figure fell by half to \$97,830. Please
4 explain this change.

7 A. Hydro's original response to IN-NLH-019 was provided in the fall of 2013. At that
8 time the \$195,000 figure was a forecast value, whereas the figure of \$97,830
9 provided in the November 2014 revised response was an actual 2013 value.
