5

6 A. Hydro's response to IN-NLH-240 explained that the Isolated Systems Community
7 Program was a three-year pilot program that was planned to run from 2012 to
8 2014, inclusive. Since the above referenced response was provided, Hydro has
9 renewed the Isolated Systems Community Program for 2015. This program offers
10 direct installation of energy saving products to residential and commercial
11 customers.
