2            In IN-NLH-015, Hydro stated that it provides Conservation and Demand  
3            Management services to Labrador Isolated customers.

4            To the best of Hydro's knowledge, does anyone provide Conservation and Demand  
5            Management services to residents of Natuashish? If so, please detail who, and  
6            describe what kind of services are provided.
