

- 1 **Q. Page 33: Does Mr. Wilson agree that if Hydro's CDM efforts are intended to**
2 **benefit all customers then the costs should be recovered from all customers?**
3 **If yes, please explain the unfairness in Hydro's CDM cost recovery proposal.**
4
5
6 **A.** Not in this case, because Hydro and NP each has its own similar CDM program
7 and the cost reducing benefits of NP's CDM program, like the cost reducing
8 benefits of Hydro's corresponding CDM program, flow to all customers. In this
9 circumstance it would be unfair for NP's customers to be charged for both
10 Hydro's CDM program and for NP's CDM program while Hydro's customers do
11 not share in NP's CDM program costs.
