

1 Q. [InterGroup Consultants Testimony, page 50, lines 3-7].

2 Please provide a breakdown of the amount of support provided to the system by
3 Corner Brook Pulp and Paper during the 2013-2014 winter season. The
4 breakdown should include the capacity made available through (i) increasing the
5 maximum operating parameters of the frequency converter, (ii) increasing
6 generation and (iii) reducing load.

7 A. Please see the response to NP-IC-9.
