| 5 | Q. | Since the existence or the amount of the rural deficit cannot be attributed to the electricity use of |
| 6 | | electricity consumers responsible for funding it, does Dr. Feehan agree or disagree that the Board |
| 7 | | could take considerations such as conservation, efficient use, marginal costs or public policy into |
| 8 | | account in determining the appropriate deficit allocation methodology? Please explain. |
| 9 | | |
| 10 | A. | See responses to NP-LWHN-006 and NP-LWHN-007. |
