

1 Q. Further to response to Request for Information V-NLH-002:
2 Please identify where the \$5,370,000 for the project “Additions for Load – Labrador
3 South Interconnection” is included in the 2014 Capital Budget and please provide all
4 supporting documents for this project.

6

7 A. The projects listed in the response to V-NLH-002 were based on the assumptions at
8 the time of evidence preparation, which were primarily based on the five-year
9 capital plan as filed with Hydro’s 2013 Capital Budget Application. Hydro’s five-year
10 capital plan is reviewed annually with the emphasis on the projects to be filed in the
11 near-term for approval by the Board. Project estimates and timing are reviewed,
12 refined and subject to adjustments up to the time of filing. This project has been
13 moved to 2015 in Hydro’s revised five-year capital plan. Supporting documentation
14 for this project is not yet complete but will be provided when Hydro applies for
15 approval as part of its annual capital budget application to the Board.
