- 8 A. PUB-NLH-169 details those costs that are allocated among Nalcor lines of business
9 as outlined in the Intercompany Transaction Costing Guidelines (Exhibit 8 of the
10 GRA Evidence). The Lower Churchill Project is one of Nalcor's lines of business and
11 accordingly, a portion of the costs would be allocated to the Lower Churchill
12 Project. Information regarding specific allocations is not relevant for an
13 understanding of the matters before the Board in this proceeding.
