

- 1 Q. Does Hydro believe it is appropriate to include forecasts of extraordinary capital
2 additions such as the 60 MW gas turbine, which have not yet been approved by the
3 Board, in the evaluation of the reasonableness of future rates? If so, why?
4
5
- 6 A. There are no unapproved extraordinary capital expenditures included in rate base
7 in the 2013 Test Year, which is the test year that the Board has been directed to use
8 for the approval of rates in this General Rate Application.
