

1 Q. What incentive will Hydro have to optimize the fuel conversion factor at the
2 Holyrood Thermal Generating Station if Hydro's proposed deferral account and
3 recovery method is approved? (Volume I, Section 3: Finance, page 3.50, lines 10 to
4 11)

5
6
7 A. Hydro's focus will continue to be to provide least cost and reliable power for the
8 ratepayers of the Province. The internal operations and planning efforts towards
9 maximizing the fuel conversion rate at Holyrood, as outlined in Hydro's response to
10 NP-NLH-328, will continue until the point in time that the plant is no longer a prime
11 power producer.
