

1 Q. [Mel Dean Evidence, page 7, lines 21-23]

2 Is Mr. Dean aware of any other jurisdictions which use similar methodologies to
3 determine specifically assigned OM&A charges for utility customers? If so, please
4 provide examples and detailed explanations of these methodologies.

5 A. An on-line search did not reveal the methodology that other jurisdictions use to
6 determine the specifically assigned operating, maintenance and administration
7 (OMA) charges, therefore I am unable to confirm if other utilities index original plant
8 in service costs to constant year dollars.
