

1 Q. **2013 General Rate Application, Rates**

2 Using the most recent forecast, what is expected to be the impact on rates to
3 Newfoundland Power of the RSP adjustment effective on January 1, 2015? Provide
4 details of the calculation.

5

6

7 A. The RSP adjustment effective January 1, 2015 will apply to Industrial Customers
8 only in accordance with Section D of the Current Schedule of Rates, Rules and
9 Regulations, so it would not have any impact on the rates to be charged to
10 Newfoundland Power. The RSP adjustment effective July 1, 2015 will apply to
11 Newfoundland Power, the forecasted impact of which is addressed in the response
12 to PUB-NLH-72.
