

1 **Q. 2013 General Rate Application, Cost of Service**

2 Exhibit 9, Section 2.1 - In reference to the Review of Demand Billing to
3 Newfoundland Power, provide details of all alternate rate designs that were
4 considered in relation to the methodology used to calculate Hydro's billing demand
5 to NP.

6

7

8 **A.** Hydro did not consider alternate rate designs for the methodology used to calculate
9 Hydro's billing demand to NP. Hydro is, however, willing to explore options related
10 to NP's rate structure during this GRA proceeding.
