

1     Q.     Please explain in detail why Revenues (column 2) shown on Attachment 1 provided  
2           in the response to NP-NLH-321 (Schedule 1.2, page 1 of 6) are different from the  
3           revenues (column 2) shown on the Schedule 1.2 of the Updated Exhibit 13 of the  
4           Amended General Rate Application (COS).

5

6

7     A.     The revenues provided in Hydro's response to NP-NLH-321 were based on "Hydro's  
8           2015 Test Year Cost of Service Study assuming the currently-approved methodology  
9           for the allocation of the rural deficit is used" as requested by the Request for  
10          Information. The revenues shown in column 2, on Schedule 1.2 of Exhibit 13 to the  
11          Evidence for Hydro's Amended Application are based upon the proposed  
12          methodology for the allocation of the rural deficit (i.e., based upon revenue  
13          requirement).
