

1 Q. **Reference: RFI NP-NLH-091 - Asset Retirement Obligations**

2 **Reference: Exhibit 14, Holyrood Thermal Generating Station Decommissioning**

3 **Study**

4 Section 4.0 (page 4 .1) of the report states that the estimate is a class 4 opinion of  
5 probable cost with 1% to 15% of the engineering complete. Section 4.2 (page 4.4)  
6 further states that the estimate has an accuracy of -10% to +30%. As more accurate  
7 estimates become available, how does Hydro propose to deal with the differences?

8

9

10 A. As more accurate estimates become available, Hydro will update the ARO  
11 accordingly and at that time, Hydro will review its options to recover these costs.
