

1 Q. **Reference: 2013 Amended GRA, Rate Schedules**

2 The industrial firm rates (page 6-7 of 46) and the RSP (pages 10-17) in the Amended  
3 Application appear inconsistent with the 2015 Interim Rate Application. Please  
4 clarify which rates Hydro is currently proposing for the amended GRA.

5

6

7 A. The proposals filed in the 2015 Interim Rates Application are for interim rates and  
8 interim RSP rules. Approval of the proposed 2015 interim rates and interim RSP  
9 rules does not change the proposals reflected in the Amended Application. Hydro is  
10 hopeful that negotiations among the parties will result in a settlement agreement  
11 on rate design and RSP rules.
