

1 Q. In PUB-NLH-028, Hydro was asked inter alia to state the cumulative increase given
2 to non-union positions over the period 2007 to 2012. This question was not
3 answered. Please provide the reply.

4

5

6 A. Table 1 below (first referenced in PUB-NLH-028) provides the average increase each
7 year for salaries, which includes the general economic adjustment. The total
8 cumulative increase for non-union positions from 2007 to 2012 was 36.5%. The
9 average increase each year over this period was 5.3%. This is inclusive of economic
10 adjustments, progression, merit and any adjustment that was necessary to maintain
11 supervisory differentials or competitiveness in the market.

Table 1

Non-Union Salary Increases¹

2007 – 2012

Year (April 1)	General Economic Adjustment	Average "Actual" Increase²	Cumulative "Actual" Increase
2007 ³	3.0%	4.0%	4.0%
2008 ³	3.0%	4.0%	8.2%
2009	3.0%	4.56%	13.1%
2010	6.5%	8.92%	23.2%
2011	4.0%	4.76%	29.0%
2012	4.0%	5.77%	36.5%

¹ Increases include general wage adjustments, progression and merit increases as well as Front Line Supervisor adjustments (where applicable).

² Non-union salary administration is effective April 1 of each year. The increases reflected above are a direct comparison of the difference between April 1 implementation and the beginning salaries before adjustment.

³ The Front Line Supervisor Adjustment was implemented in June 2008 (retroactive to April 1, 2007) and applied after the April 1 salary increases. As a result, the FLS increases for these years are reflected in 2009.
