

1     Q.     Please confirm that the 2013 GRA NP peak load forecast is meant to reflect normal  
2            weather.

3

4

5     A.     The 2013 GRA NP peak load forecast is meant to reflect normal weather for the  
6            months of April to December. The NP native peak loads for January to March are  
7            actual peaks.
