

1 Q. **Re: IN-NLH-060**

2 “The table on Page 2 presents the evolution of net energy requirements for
3 Labrador isolated communities and the L’Anse au Loup System, starting in 1995.
4 The net energy requirements for Labrador Isolated communities do not include
5 L’Anse au Loup, Davis Inlet or Natuashish.”

6 Why do the net energy requirements for the Labrador isolated communities
7 starting in 1995 not include Davis Inlet for the years that NLH provided service to
8 Davis Inlet?

9 Please present the year-by-year energy requirements for Davis Inlet prior to the
10 decommissioning and those for Natuashish.

11 Please present a revised table including data for Davis Inlet and Natuashish.

12

13

14 A. IN-NLH-060 references lines 8-17 from Hydro’s Evidence, Section 1, page 1.13 and
15 these statements present information for Labrador Isolated communities excluding
16 Davis Inlet.

17

18 Please see the following tables that present the annual energy requirements for
19 Davis Inlet prior to the decommissioning, the annual energy requirements for
20 Natuashish and the evolution of net energy requirements for Labrador Isolated
21 communities that includes the net energy requirements of Davis Inlet and
22 Natuashish.

TABLE A
Net Energy Requirements MWh

	<u>1995</u>	<u>1996</u>	<u>1997</u>	<u>1998</u>	<u>1999</u>	<u>2000</u>	<u>2001</u>	<u>2002</u>	<u>2003</u>	<u>2004</u>	<u>2005</u>	<u>2006</u>	<u>2007</u>	<u>2008</u>	<u>2009</u>	<u>2010</u>	<u>2011</u>	<u>2012</u>
Davis Inlet	1,685	1,667	1,889	2,058	2,391	2,666	2,902	3,365	1,100	187	95							
Natuashish									4,184	6,132	6,223	6,883	8,400	8,186	8,099	8,319	8,692	8,655

1. The 2003 net energy requirement for Natuashish includes the months February through December
