**John Wilson**

NLH-PUB-004 Page 33: Does Mr. Wilson agree that if Hydro’s CDM efforts are intended to benefit all customers then the costs should be recovered from all customers? If yes, please explain the unfairness in Hydro’s CDM cost recovery proposal.

NLH-PUB-005 Page 27: Please identify by page reference where Hydro’s consultant has observed that *“there is no compelling economic or equity reason requiring the pass-through of the additional capacity cost savings to the curtailed customers if the fuel cost savings alone provide adequate economic incentive for voluntary curtailment.”*
