

1 Q. **Reference: Regulated Activities Evidence**

2 Please provide in tabular form, the total costs of the Ramea Wind-Hydrogen-Diesel
3 Facility which are recovered by Hydro from ratepayers (either directly or via the
4 Rural Deficit) for each year from 2007 through 2013. (Regulated Activities Evidence,
5 page 2.5, lines 15 to 16)

6
7
8 A. As indicated in Section 2.2.4 of the Regulated Activities Evidence “The Ramea Wind-
9 Hydrogen-Diesel facility is a Research and Development (R&D) project, the capital
10 cost for which were not incurred by the ratepayer.”

11
12 As indicated in Hydro’s response to PUB-NLH-014, the operating agreement
13 between Hydro and Nalcor stipulates that all operating costs are to be charged to
14 and paid by Nalcor in accordance with the Nalcor Group's established intercompany
15 transactions policy. Deducted from these amounts are Hydro's avoided fuel costs
16 resulting from the operation of the wind-hydrogen facilities. In the 2013 Test Year
17 Hydro has allocated \$89,502 in avoided fuel costs, in the form of power purchases.
