

NP-NLH-187
2013 NLH General Rate Application

Page 1 of 1

1 Q. Further to response to Request for Information NP-NLH-045:
2 The 2014 forecast Holyrood fuel price is approximately \$11 million lower than the
3 2013 Test Year forecast. Does Hydro believe it would be reasonable to adjust the
4 2013 Test Year forecast and use the forecast Holyrood fuel price for 2014 to better
5 reflect the cost of providing service for the period that customer rates will be in
6 effect? If not, why not?
7
8
9 A. Please see Hydro's response to NP-NLH-184.
