

1    Q.    With reference to Hydro's response to CA-NLH-3, please confirm that Section E with  
2            respect to Historical Plan Balances forms part of the RSP rules which, as decided by  
3            the Board in P.U. 25 (2010), are not distinct from the interim IIC rates ordered for  
4            the period January 1, 2008 to August 31, 2013, commencing with P.U. 34 (2007).

7    A.    It is confirmed that RSP rules form part of the RSP rates. The point agreed in CA-  
8            NLH-3 is that these particular rules (Historical Plan Balances part of Section E) are  
9            no longer applicable; the RSP amounts to which they apply have been dealt with in  
10          accordance with the terms of that section. The Board may, if it chooses, agree to  
11          strike this section on the basis that it no longer has any applicability to customer  
12          rates.
