

1 Q. Please indicate which of the \$1,263,400 of capitalized assets proposed in the
2 amended Application will continue to be utilized by Hydro if the planned new
3 combustion turbine is installed in Holyrood.

4

5

6 A. It has not yet been determined which of the \$1,263,400 in capital cost assets could
7 be reused if a planned new combustion turbine is installed in Holyrood. This
8 determination would be expected to be made during the detailed engineering
9 phase of the planned combustion turbine project. That phase of the project would
10 consider how best to make use of existing infrastructure at the Holyrood site.
