

1 Q. In the response to NP-NLH-022, Attachment 1 is a report entitled *AMEC Holyrood*
2 *Thermal Generating Station Gas Turbine Condition Assessment & Options Study,*
3 *December 19, 2011* (the “AMEC report”). On page 24 of 231 the report states:

4 *GT equipment vendors previously issued their condition*
5 *assessment reports to Hydro. Hydro made these reports available*
6 *to AMEC. An analysis of these reports, and consultation with*
7 *vendors, forms the basis for AMEC’s recommendations for*
8 *refurbishment work necessary to extend the life of the gas turbine*
9 *plant as a highly reliable operation until the year 2020.*

10 Provide copies of the condition assessment reports that were made available to
11 AMEC.

12

13

14 A. The condition assessment reports that were made available to AMEC are included
15 in Appendices 9 through 12 of NP-NLH-022 Rev 1, Attachment 1.
