

1 Q. In the *2012 Capital Expenditures and Carryover Report*, page 5, Hydro has indicated
2 in its Carryovers to 2013 that \$3,743,600 remains to be expended in 2013 on the
3 Upgrade Gas Turbine Plan Life Extension - Hardwoods project. In the report
4 provided with the current application, *Hardwoods Gas Turbine Alternator*
5 *Replacement 2013*, page 14, Hydro states that \$2.1 million of the originally
6 approved project will no longer be necessary.

7
8 Please provide details of the work that remains of the original project to be
9 undertaken in 2013, and explain how the remaining approved amount of the
10 original project, \$1,643,600, relates to the current request for approval of an
11 expenditure of \$8,015,800.

12
13
14 A. The remaining approved amount of the original project, \$1,643,600 is associated
15 with the remaining scope items listed below and does not relate to the current
16 request for approval of an expenditure of \$8,015,800.

17
18 The remaining scope items from the original project that will be completed in 2013
19 include the following:

- 20 • Replacement of electrical systems;
21 • Control and Instrumentation systems modifications;
22 • Recoating of structures and replacement of cladding; and
23 • Installation of overhauled engines and new pumps.
