

1     Q.     The Hatch report at Appendix B briefly addresses lighting upgrades at p. 25 of its  
2             report (B31 of Appendix B). Did Hydro ask Hatch to consider whether a routine  
3             bulb replacement regime or schedule could obviate the need for this project?

4

5

6     A.     Hydro did not ask Hatch to consider whether or not a routine bulb replacement  
7             regime or schedule could obviate the need for this project. Hydro has considered  
8             this alternative on its own merits, as is outlined on page 32 of the report.
