
Subject: FW: NLH - 2015 Interim Rates Application - NLH Objection to IC request for extension

From: NALCOR

Sent: February-18-15 6:39 PM

To: NL Public Utilities Board

Subject: Fw: Newfoundland and Labrador Hydro – 2015 Interim Rates Application

Ms. Blundon,

Hydro respectfully disagrees with the request of the Industrial Customers for an extension until [Monday](#). The Industrial Customers have already been granted a one day extension to file their submission. Hydro notes that all other parties, including Vale, were able to file their submissions on time. Permitting this further extension to the Industrial Customers will permit the Industrial Customers to essentially draft a reply submission which has not been afforded to the other parties and could be perceived as providing an unfair advantage to the Industrial Customers. Hydro also notes that permitting this extension will cause a further delay in this process which could delay a decision from the Board and could threaten the implementation of the proposed rates for [March 1](#).

Regards,
Tracey Pennell
