

1 Q. NLH's November 18, 2013 application proposed interim rates for various NLH
2 customers, effective January 1, 2014, or, alternatively, a deferral and recovery
3 approach until its 2013 GRA had been ruled on by the Board. Had NLH's interim
4 rates proposal been accepted then please indicate what rates would have applied to
5 NLH's Labrador Interconnected customers as of January 1, 2014.

6

7

8 A. If Hydro's interim rates proposal been accepted, Labrador Interconnected
9 Customers' rates as of January 1, 2014 would have continued as those in existence
10 on December 31, 2013.
