

1     Q.     Please restate Table 1 of the Interim Rates Evidence to reflect (i) the Board’s denial  
2           of Hydro’s request for interim rates for Newfoundland Power and Hydro’s rural  
3           customers, and (ii) the Board’s approval of Industrial Customers’ phase-in rates and  
4           associated modification of the RSP rules.

5

6

7     A.     Table 1 cannot be restated assuming interim rates are approved for one customer  
8           class. The RSP relies upon Test Year values and calculates variances that are  
9           allocated among customer classes on the Island Interconnected System.
