

1     Q.     How does Hydro intend to mitigate the revenue shortfall resulting from the  
2             proposal in the Interim Rates Application to hold rates the same for certain rural  
3             customers that would otherwise have had rate increases?

4

5

6     A.     The revenue shortfall will result in a lower rate of return than would otherwise  
7             occur.
