

1    Q.    Set out the forecast impact on Hydro's 2014 revenue requirement and return on  
2           equity if i) the Rate Stabilization Plan Adjustments proposed in the Interim Rates  
3           Application are denied; and, alternatively, ii) if the base rates proposed in the  
4           Interim Rates Application are denied.

5

6

7    A.    (i)   Since Rate Stabilization Plan Adjustments do not form part of Hydro's revenue  
8           requirement, there would be no impact on the 2014 revenue requirement and  
9           return on equity.

10       (ii) If the base rates proposed in the Interim Rates Application are denied, then  
11       return on equity is forecast to be approximately 1.11%.
