

1    Q.    In Hydro's view does the direction of Government in OC2013-089 and OC2013-091,  
2           setting out a 2013 Test Year, mandate the use of 2013 Billing Determinants as well  
3           as other 2013 data in the General Rate Application and the Interim Rates  
4           Application?

5

6

7    A.    Yes, in Hydro's view, OC2013-089 and OC2013-091, setting out a 2013 Test Year,  
8           does mandate the use of 2013 Billing Determinants as well as other 2013 data in  
9           the General Rate Application and the Interim Rates Application. Hydro confirms  
10          that 2013 data has been used in its 2013 Test Year. The 2014 billing determinants  
11          were used only to demonstrate the impact of the rate changes on customers in  
12          2014.
