8    A.    Responding to this RFI requires that Hydro provide load forecast information it has  
9            received from its Island Industrial Customers. One of those customers has recently  
10          objected to the release of its load information on the basis that it was provided to  
11          Hydro on a confidential basis and is proprietary. If the Board or a party in this  
12          proceeding wishes that, nonetheless, this information be disclosed, Hydro requests  
13          it be given an opportunity for that customer to consider whether it wishes to make  
14          a submission to the Board as to the release of this information.
