7 A. Hydro is assuming that the intended reference is the RSP Application filed July 30,
8 2013 as there was no Schedule B filed as part of the General Rate Application on
9 July 30, 2013. In the RSP Application, it is not stated that Schedule B refers to the
10 proposed 2013 Test Year cost of service nor the approved 2007 Test Year. Hydro's
11 RSP rules are designed to refer to the Test Year currently in effect. Hence, there is
12 no direct reference to a specific Test Year.
